

To Whom it May Concern,

My concerns are about the 2nd Amendment as I feel myself and my family are being violated. I feel the constitution is what our government is all about and I think we are over reacting on the tragedy of Sandy Hook, the Colorado incident and Virginia Tech. Yes, they are all tragedies and I do believe that something needs to be done, but what you are doing is going after the people that are legal to carry and bear arms.

I feel that you or the government should be looking at other ways to secure our schools and people by other ways such as mental health and background checks. You are penalizing the people that are permitted by law that have already had the background checks and have paid their fees.

My son and I have both taken the Hunter Safety course. I feel the joy of sportsman's clubs, hunting, and self-protection would be taken away with this new law.

I, Randy LeBeau am for the 2nd Ammendment.

Sincerely,

Randy LeBeau
